

Summer 2024

The end of the training year is always full of activity. ARCPs, new foundation doctors, and trying to sneak a holiday in somewhere! It's also a good time to reflect on what we've achieved this year and what's coming up next.

If you feel like you've missed some research or quality improvement experience this year, we can help make next year different. Get in touch to join us and add a new dimension to your next year!

What are we up to?

PEAR DROPS
Completing data collection

BILINEST
Reviewing guidelines and protocol

FIRE
Analysis and writing up

Oral Fluid Challenge QIP
Completing survey, reviewing guidelines

“For child health to flourish, it is **essential** that the next generation of paediatricians is research literate”

REACH Co-Chairs, Dom and Eva, explain the challenges trainees face in finding research opportunities and call for the paediatric community to tackle these gaps face-on. Read more in [Archives of Disease in Childhood](#)

Want to be a local lead?

New placement, new you?
We'd love to have you join our team, especially if you're working at the **Royal London** or **Royal Free** from September. Shoot us an [email](#) to find out more.

REACH out online

Educational Webinars

Our webinars are now open to anyone who'd like to join and are a great opportunity to fulfil research competencies. Save the date for the **9th September at 7pm**, and watch your inbox for joining instructions!

REACH Opportunities Board

Do you have an academic project that needs more help, or a fellowship that you're struggling to advertise? [Email Us](#) to add it to our new **Opportunities Board**, coming soon to the REACH website.
